

# MATCH RESULTS and RECORDS

Under this heading in each edition of the Journal will be details of match results and a record of specimen fish. In the case of fish not caught in matches and considered by the member to be worthy of record, I would like to point out that a special form, obtainable from the Secretary, should be completed.

This being the close season, I thought it would be of interest to members to know a few details of results from my records of the past five years, and to note how little they differ in the total weight. Also noted are the number of members who have managed to lure these fish to their keepnets.

Season	1949-50	1950-51	1951-2	1952-53	1953-54
Weight of Fish	318-14-9	231-4-8	395-3-15	356-12-12	378-7-12

Roach being our favourite the totals were :-

546	386	325	308	566
-----	-----	-----	-----	-----

Blunham took the biggest share with :-

294	239	359	236	352
-----	-----	-----	-----	-----

Several years ago our old friend Mr Fielding stocked Colney with small Carp. These did not show up in last year's competitions very much, but quite a few were landed by individual members. Results however have shown that Mr Fielding's efforts have not been in vain as the totals caught over the past five years were 9, 14, 20, 65, 13.

The best specimen fish caught throughout the past five seasons are as follows:-

FISH	WEIGHT	CAUGHT BY	FISH	WEIGHT	CAUGHT BY
Roach	1-10-2	S.Castle	Rudd	1-13-14	L.Carton
Dace	0-6-2	L.Venn	Chub	3-2-0	A.Miller
Bream	3-11-14	A.Tofts	Tench	3-8-0	P.Warner
Gudgeon	0-2-0	P.Warner	Perch	1-1-6	J.Swan
Carp	6-12-0	J.Meadows	Barbel	1-3-4	H.Dickenson

The above caught in competitions

The best fish recorded out of competitions were as follows:-
